TO LAUNCH MOVEMENT TO INSTALL LIFE-SAVING APPARATUS FOR PUBLIC

Popular Subscription to Be Started Soon To Purchase Necessary Equipment—To Save Victims of Possible Death—To Take Place of Obsolete Pulmotor.

A movement will be launched in our city and Waveland within the next few days, seeking to install an H. & H. Inhalator for resuscitation of victims of drownings (in the early stages), electric shocks, etc., to be used for the public good and by the public. This will take the place of the obsolete pulmotor purchased some several years ago for that purpose and failed for the reason it could not be used by laymen and is not the type such as is proposed in emergency cases.

Dr. M. J. Wolfe and others are interesting themselves in this most worthy public benefit. To aid not only home folks but as a protection to victims of the water who may be visiting here, especially since this section is a watering resort and thousands visit here each season and avail themselves of the healthfulness of our sea bathing and the incidental pleasure of swimming as well as bathing.

The H. & H. Inhalator is the newest and tested invention of two medical professors of Yale and the initials bear their names. Its cost is only \$175.00, small when compared with its usefulness and the possibilities of life-saving.

It is a duty this community and its citizens owe the visiting public, at least. And that such a move to provide for such protection as a life-saving effort is to be commended and endorsed.

Within the next day or so ladies will begin soliciting funds for this purpose. Only a dollar is expected from each family, nothing over however, a more generous contribution for so meritorious cause will be welcome.

The Echo is of the opinion it will require only a small effort on the part of the public with good will to do in order to raise the necessary funds. When the solicitors call be prepared. Make their task easier by responding promptly. Avoid a whole lot of unnecessary explanation and solicitation. It is to be a labor of love for these workers. For the cause of safety and humanity. This article starts the ball rolling. Will you cooperate? A human life is priceless. Help save one.

Sulphur Test Well At Clermont Harbor Reaches 2000 Ft. Depth

The Layne Central company of Memphis has passed the 2000 feet depth in a test well for sulphur that is being put down at Clermont Harbor in Hancock county for the American Sulphur company, according to reports reaching here from the scene.

Drilling for sulphur, it was said, would continue to at least 2500 feet. That depth will probably be reached next week.

According to present plans, should the well fail to produce sulphur at 2500 feet, it will be drilled deeper for oil.

A. B. Fine of Waveland, is superintendent of the project.

OIL TEST MADE BY SUN OIL COMPANY CREATES INTEREST

Total Depth of Well Now Over 5846 Feet—Tests Still in Progress.

The Sun Oil Company prepared for another drill stem test at its Tally No. 3 hole in Lamar county Saturday after having cored thru 152 feet of asphaltic sand.

Total depth of the hole was reported to be 5846 feet, by Henry N. Toler, state oil and gas supervisor, after he had contracted representatives of the Sun Company, Saturday.

The asphaltic sand was left at 5795 feet, but the core barrel continued in a sand formation. A drill stem test was then ordered from 5895 to 5900 feet to determine the nature of this sand under the asphalt.

No saturation of the sand under the asphalt was reported to Supervisor Toler.

The Sun well is located in section 33-4n-15w of Lamar county, 18 miles south of Hattiesburg. It has been the source of widespread interest since an oil sand was encountered at 5843 feet.

It is believed possible that a rock formation will be found under the sand. Presence of a rock structure would be encouraging, according to competent observers.

The present well may be drilled to 9,000 or 10,000 feet in the search for a paying oil sand.

State Oil and Gas Supervisor Henry Toler returned to Jackson from a visit to the oil well and was quite optimistic over the prospects for oil in that section. Mr. Toler stated that while the tests at this well have failed to reveal oil in commercial quantities in the sand strata encountered last week at a depth of 5,800 feet, that it is possible that commercial oil will be found in this well at a lower depth.

The Supervisor further stated that the formation in the Talley well proves that there is a source of oil in Mississippi, and declares that this well is the most promising development discovered in the search for oil in the state up to this time.

The Sun Oil Company is one of the largest in the country and it is noteworthy to see what good has already come from their operations in Lamar county.

The company has furnished employment to many, helped others retain their homes and lands.

Should oil be discovered at this particular location it will mean much for the whole state in general as well as those directly interested. Our people here in Hancock county are extremely interested in this new venture.

A trip to the well by this writer was of much interest, being instructive, educational and beneficial. A trip by others to the well is well worth the time and money so invested.

DRAINAGE SYSTEM IMPROVED

Laying of New Drain On Court Street To Be Of Great Benefit.

Another improvement for the city of Bay St. Louis is the laying of a drain from Gex street to the beach on Court street under supervision of City authorities.

A force of several men under the supervision of street foreman Albert Favre is engaged in doing the work. The pipes being used are of concrete furnished by the city and labor done under auspices of the PWA. The pipes are 16 inches in diameter and two feet in length. The drain is just inside of the sidewalk and crosses the beach road to the water's edge.

The purpose of this drain is to take care of the excess water caused by rains which accumulate on Court and Gex streets and which formerly backed up to Main street, flooding the lots on that street. The new project will be of much benefit to this section of the city and has been contemplated for a long time.

Discover Old Drain.

While digging the trench for the new drain the workmen found an old drain running parallel with Front street which had been laid many years ago and which was not known to have existed. The concrete piping used in this drain is in perfect condition and was of the very best material obtainable at that time.

Traffic on the beach at this point is handled during the day by city policemen and has been uninterrupted while the work is in progress.

The city authorities are to be complimented on this latest improvement to the drainage system of our city.

FORESTRY OFFICIAL VISITOR

Speaker Before Rotary Club Wednesday Noon—Work Confined to National Forest of State.

Mr. R. M. Conarro, U. S. Supervisor of Forestry for the State of Mississippi, was guest-speaker at the regular weekly-luncheon meeting of the Rotary Club Wednesday at Hotel Reed. He outlined the program planned by his department for Mississippi. He explained that his work was confined to the National Forest in the State, as other lands if protected were handled by the State Forestry Department.

In order to clear up the general conception of the public as to National Forests and National Parks, he explained that "National Parks" were places maintained by the Government to be used for "play" only, while on the other hand "National Forests" are for "work" only. The speaker estimated that a total of approximately one million acres of land in the state was under Federal Forestry protection. The ultimate plans call for a total of more than two million acres. This would constitute very small proportion of timber growing land in Mississippi, the remaining part would be left up to the individual owners, in so far as timber conservation was concerned.

That is the reason it is so necessary that the government must sponsor educational program in order to promote a spirit of co-operation among the individual land owners.

Mr. Conarro told of the large plantation of seedling pines growing now, and from this lot during this coming season they would plant about twenty-four million in the National Forests of Mississippi. In conclusion he stressed the importance of trees for industrial uses, and also brought out that trees of different types throughout the countryside small communities of the citizens of our country.

Mr. Conarro was introduced by President Norton Haas, as a prominent Rotarian, being a member of the Jackson, Mississippi Rotary Club.

FENTON YOUTH IN CRASH

Minus Faye, 15, Loses Life In Auto Collision—Driver Of Other Car Arrested.

Minus Faye, 15-year-old son of Mr. and Mrs. Ed Faye of Fenton, was killed in an automobile collision at Kiln Sunday morning and his brother was reported seriously injured. Thomas Jairette, a Hancock county negro, driver of one of the automobiles which figured in the collision, surrendered to Hancock county officers after the accident and was transferred to the Harrison county jail.

The Faye family is prominently connected and well known in that section of Hancock and adjoining Harrison county territory. The tragic death of this splendid youth is deeply deplored.

Hancock County Youth Wins Cash Prize For Best Essay on Thrift

In a contest sponsored by the Tennessee Coal, Iron and Railroad Company, Birmingham, Ala., Thomas Haas of Hancock county, Kiln, Miss., won a cash prize of \$6.25 for writing one of the best 18 essays on the subject of "Thrift" in the State. This contest was offered to every bona fide club boy in Mississippi. BUREAU MEETING SATURDAY

Morning August 14 at Local Court House—Training School at Biloxi, Aug. 18-20th.

J. A. Bozeman, county agent wishes to announce a County-Wide Farm Bureau Meeting to be held at the courthouse in Bay St. Louis on Saturday morning, August 14 at 10:00 o'clock. This meeting is called by Mr. George Spiers, President of County Farm Bureau, for the primary purpose of deciding upon the construction of a county farm bureau community house. It will be necessary that two thirds of the membership be present in order that what ever business is transacted will be agreeable to the majority.

Also of interest to the Farm Bureau and other local leaders is a Southern Farm Bureau Training School set for Biloxi, August 18-20. This is a rare opportunity for the farm leaders in this immediate territory and is one that each farmer who possibly can should avail himself of.

Plans are already complete for the greatest Farm Bureau Leader's Conference ever held in the South. Reports indicate a record attendance of farm bureau leaders, county agents, home demonstration agents and other agricultural leaders from many counties, throughout the Southern States.

Among the prominent speakers on the program, are President Edward A. O'Neal of the American Farm Bureau Federation; Mr. Chas. W. Sewell, Administrative director, Association Women of the American Farm Bureau Federation; Governor Hugh White of Mississippi; Extension directors of several Southern States and State Farm Bureau presidents.

The theme of the meeting will be "Building A Permanent Institution To Serve All Agriculture."

A tentative program for the school will be found in the August issue of the Mississippi Farm Bureau News.

They are chaperoned by Sister Mildred of St. Joseph's Academy in New Orleans. The young ladies are having a fine time sporting in the water, bathing and fishing.

—An impromptu musical was enjoyed at the lovely home of the Graces in Waveland Sunday evening. Among those participating were Mrs. Rene de Montluzin, Mr. Rene de Montluzin, Jr., and Mrs. Catherine Thomas. Mrs. Thomas has a new violin made by the hand of her husband Mr. Earle Thomas, of Canada. It has an exquisite tone, rich and mellow.

—Local friends of Mr. and Mrs. Herbert C. Berckes, who frequently visit the Bay-Waveland section during the summer, will learn with interest of their visit to Washington, D. C., where, accompanied by their young daughter, Robin, they were guests of friends and later visited New York City where they registered at the Waldorf-Astoria. They will return to their home in Rosa Park, New Orleans, during the present month.

—Mr. and Mrs. Chas. Reed are stopping at Hotel Reed in Bay St. Louis for the summer accompanied by their daughter, Gloria. They will return to their Hotel Senator where they will reside during the winter, in New Orleans, La.

—Distinguished guests registered at Hotel Reed are Miss Jeanne O'Reilly, Mr. and Mrs. Frank Davis, Mr. and Mrs. Frank Richardson, Mr. and Mrs. Marquer, Odette Bienvenu, Mr. J. H. Edwards, Mr. and Mrs. Al Boze, all of New Orleans and Mr. L. M. Williams, of Biloxi, Miss.

—New Mid-Annual number of the local Bell telephone directory is in the hands of current subscribers, presenting names and respective telephone numbers, and usefulness of added information and usefulness.

—New directory for local use, complete listings for Bay St. Louis, Biloxi, Gulfport, McHenry, Ocean Springs, Pass Christian and Wiggins. Four full pages of advertisements from the number of progressive and enterprising Bay St. Louis business firms is noted and indelibly imprints the enterprising tenor of their method. The Bell Company is to be complimented on so splendid a directory issue, an evidence of returning prosperity.

—Mrs. Hampton Reynolds of New Orleans, mother of Mrs. Richard Webster Leibe of Baton Rouge, recently visited her sister Mrs. W. E. Wakefield and mother, Mrs. E. A. Frion.

—Mrs. Walter Dupiquier and three sons have returned from New York and are spending the remainder of the summer at Mrs. W. W. Chapman's home on the beach. Mrs. Dupiquier is remembered as the former Miss Alice Chapman of New Orleans.

—Traveling to by steamer and to by rail Mr. and Mrs. Leo E. Kenney and young daughter, Irma Louise, plan to leave from New Orleans Saturday week for New York City, where they will stay for a while. The objective of their trip, however, is Plainfield, N. J., where they will visit under the Kenney parental roof with Mrs. Kenney, who will see her granddaughter for the first time.

—Mr. and Mrs. W. J. Idom prominent residents of Forest, Miss., are spending part of the week on the Mississippi Gulf Coast, visiting Bay St. Louis friends Wednesday and Thursday, registered at The Answer while here. Mrs. Idom is pleasantly remembered locally. Some years back as Miss Cora Lee Pearson she was a member for three consecutive terms of Central School. They enjoyed visiting the islands of the Sound off Biloxi and various high points of interest along the coastwise route.

—Mrs. Hugh P. Burbank will leave from New Orleans by rail Sunday night en route to a visit to Mexico City via San Antonio and on return trip will also visit Monterey. She will be accompanied by her relative, Miss Eddie Bougere, of New Orleans. Mrs. Burbank spent Tuesday in New Orleans, procuring passport and negotiating other preliminary preparations.

—Mr. John Welch is spending the week traveling thru Texas by auto in the interest of his manufacturing industry located at Indianapolis, Ind. Mr. Welch and interesting family are spending the month of August at their own South Beach Boulevard villa, warmly welcomed back to Bay St. Louis by a wide circle of friends and acquaintances. The family on vacation to the seashore includes Mr. Welch's mother whose presence gives a touch of warmth and cordiality.

—Included in the number of outstanding improvements gradually added to the attractiveness of the Reed Hotel (formerly the Weston) is a new sign decorating in blue line the edges of the Marquise drop over the main entrance and lobby yet tastefully entering the acquisition of light and life the name "Hotel Reed" in deep vibrant tone of red. Travelers by night over the highway bridge going westward have no difficulty in locating the hotel—a good place to stop.

—An annual event of the gay and eventful summer season, interesting to Bay St. Louis, and the Mississippi Gulf Coast in the Bathing Beauty Contests presented at Uncle Charlie's Beautiful Nite Club and staged by the veteran of Coast night club owner and operator, the original Uncle Charlie in the person of genial Charles A. Breath, who has again assumed the active ownership and management of the resort. To let the summer ensue default of the review would not only seem amiss but would make for a woeful lack. Under sponsorship of local business firms the review will be presented on Saturday, August 21, 1937.

—Mr. and Mrs. A. E. Exnicios and the latter's sister, Miss Josie Miller, of Bay St. Louis, who are spending the entire summer within the cool and refreshing climes of Walled Lake, Michigan, (natural spring lake), continue to enjoy their stay. No wonder with the balance of the East and general southern territory of the country experiencing extremely warm weather, for Mrs. Exnicios writes to a friend: "We have no complaint even with the weather being so cold as for the last three weeks people here have to wear their heavy wraps." (Date, July 30). Mrs. Exnicios operates "Walled Lake Amusement Park" and despite the cool weather reports business exceeding all preceding periods. Surely a sign of returning prosperity and more established conditions. The party will return to their Bay St. Louis home in the Fall and are anxiously looking forward to that time.

Personal and General

YOUNG VISITOR
ENTERTAINED WITH
DANCE AT SEAGULL.

Mrs. M. W. Briggs entertained a number of the younger set last Thursday night with a dance at the Seagull for her grand-daughter, Miss Jay Weston, in compliment to her young guest, Miss Marjorie Rainwater of Little Rock, Ark.

This informal dance afforded much pleasure for the young folks and among the many guests were the Misses Mary Virginia Terry, Ernestine Bookish, Rena Nelson, Bertha Irene Koch, Marion Underwood, Betty Pope, Caroline Nolan, Vivian Prague, Annie Sue Ingram, Alice Vivian Evans, Estelle Pepperdene, Fannie Schmidt; Messrs Chas. Wenar, David McDonald, Eddie Ziegler, Steele Ansley, Paul Lacoste, Leo Seal, Jack Weston, Herman Baxter, Jack Baxter, Bobbie Schupp, Dave Glover, Joe Glover, Junior Smith, Elliott Casanova, Walter James Phillips, June Gex, Owen Crawford, Billy Schmidt, Billy Goldman.

Dancing was indulged in until the midnight hour when the happy group returned to their homes long to remember the pleasant evening.

BRIDAL COUPLE FROM ARKANSAS VISITING BAY FRIENDS AND HOME.

Mrs. R. N. Blaize and daughters Misses Julia and Regina entertained Thursday afternoon at bridge honoring Mrs. R. N. Blaize, Jr., who is a charming and accomplished visitor from El Dorado, Ark., accompanied by her husband on vacation. Mr. and Mrs. Blaize were married during the early part of the year and spent part of their honeymoon here.

—Dr. and Mrs. Willard Wirth and son Billie, are spending a month at the Bay St. Louis seashore.

—Miss Vivian Telhiard spent a few days last week visiting Mrs. N. Mazza and her two daughters, Elizabeth and Josephine of New Orleans.

—Miss Thelma Telhiard returned last week to Bay St. Louis after an absence of three weeks, vacationing in Biloxi.

—Misses Vivian and Thelma Telhiard daughters of Mr. and Mrs. Raoul Telhiard will leave Tuesday night by train for New York City and other points East.

—Mrs. Joe B. Burrow and children left Sunday for Saltillo, Miss., where they are spending the week visiting Mr. Burrow's mother at the family estate in the Delta.

—Mr. and Mrs. W. E. Wakefield and family and the latter's mother, Mrs. E. A. Frion have returned to New Orleans after a pleasant stay at the Bay, occupying the Hogan cottage on Leonard avenue.

—Uncle Charlie is meeting with very satisfactory co-operation in getting entrants to his big double header beauty contest on August 21st. Progressing business firms here, at Pass Christian, Gulfport and Piquay have signified their willingness to make the event a big success and judging from the names already on hand the affair will be well worth attending.

—Dr. and Mrs. M. J. Wolfe recently assumed active occupancy of their ultra-modern dwelling in Carroll avenue, near the beach boulevard, which had been in the building for several months past. Such dwelling is distinctively an acquisition to Carroll avenue and the city in general; an asset in more ways than one. Constructing such dwelling well manifests the confidence Doctor and Mrs. Wolfe have in the immediate future of Bay St. Louis and Gulf Coast in general. Their former dwelling (across the street) was purchased during the earlier part of the year by Mrs. John Weston of Logtown, for her own occupancy.
